DETAILED ACTION

Claim Rejections - 35 USC § 112

The claim is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

"A function" is so vague as to be meaningless. What is the function? Presence information?

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The claim is rejected under 35 U.S.C. 102(b) as being *anticipated by U.S. Patent No. 5,757,901 (Hiroshige).

As best as can be determined, Hiroshige teaches a function of indicating availability (through presence) and connecting the call if the person is available. See claims of Hiroshige. The use of presence information is also widely used in setting up conference calls.
